Temple of Sorrow (Stonehaven League #1) Devon Walker has one chance to turn her life around. A half-wit ogre, a legion of overgrown jungle beasts, and a power-tripping AI are trying to stop her. Relic Online is the hottest new game out there, and it's Devon Walker's best hope for escaping her hard-knock life. Thanks to her rocking achievements in other games, she's been hired as a salaried player. Even better, her new position comes with cutting-edge implants that turn RO's virtual reality into a full sensory explosion. Her only task? Drive the game's creator AI to the outermost limits of its creativity. Sounds easy, right? But when Devon logs in, her expectations shatter like an ice golem hit with a sonic blast. Wearing nothing but a cloth tunic and ragged pants, she spawns inside a ruined city overgrown by steamy jungle. With zero skills and nothing in her inventory but pocket lint, she immediately runs afoul of the city's guardian, a stone golem the size of an apartment building. The encounter does not go well. And Relic Online is just getting started with her. For lovers of LitRPG, GameLit, Fantasy, and video games.
